How to make contact

- **WhatsApp or Viber first.** A written message with photos of your stock gets read; a cold call from an unknown number often does not.
- **Instagram DM** where no number is listed. For many of these shops that is the front door, not a shortcut.
- **Walk in with samples** for bazaar shops — the owner is behind the counter and decides on the spot.
- **Friday is the weekend.** Best hours are 10:00–13:00 and 16:00–20:00. Many shops trade until 22:00 or later.
- **Ramadan and Eid** are the two biggest children's-clothing peaks. Offer stock six to eight weeks ahead.
- **Say your terms up front** — minimum order, delivery time, cash or credit, who pays freight.

ENGLISH Hello, this is [NAME] from [COMPANY]. We supply baby products — [formula / diapers / clothing / gear] — to shops in Erbil and Sulaymaniyah. We have stock now and can deliver to [CITY]. May I send you our price list and photos of what is available this week?

Where this came from

OpenStreetMap (shop locations and some phone numbers), the Awata Iraq business directory (iqbd.yocat.net, Sulaymaniyah Governorate only), company websites, and the shops' own Facebook and Instagram pages. Numbers were correct when collected — confirm on the call. Nothing here was invented: where a number is not listed, none was published.
